PROFESSIONAL EXPERIENCES:

CMS Developer | WordPress Specialist:

July 2023 – Present

Al-Rehman Technologies

Al Rehman Technology is a digital solutions company specializing in CMS and eCommerce development. The company focuses on building high-performance websites using WordPress, Shopify, and WooCommerce. It delivers customized solutions to enhance functionality, scalability, and user experience. Al Rehman Technology helps businesses strengthen their online presence.

Responsibilities:

- Engineered and customized WooCommerce plugins to extend core functionality and significantly enhance user experience.
- Developed advanced WooCommerce solutions including custom metafields architecture, dynamic product filtering, and high-performance AJAX search systems.
- Built custom WooCommerce plugins for targeted product discount logic and wishlist functionality based on categories and product tags.
- Designed and developed Shopify themes from scratch using Liquid, JavaScript, and CSS, ensuring responsive and conversion-focused UI/UX.
- Implemented and optimized metafield structures to support scalable, dynamic product data management across eCommerce stores.
- Delivered end-to-end BigCommerce store development, including theme customization and integration of functionalities.

Achievements:

- Delivered custom eCommerce solutions across WooCommerce, Shopify, and BigCommerce, improving store functionality and user experience.
- Enhanced performance with features like filters, AJAX search, metafields, discounts, and wishlist systems.

Frontend Developer | CMS Developer:

Dec 2021 – July 2023

Proficient Digital

Proficient Digital Pvt. Ltd., established in 2019, is a full-service IT solutions and digital marketing company trusted by 100+ global clients. We specialize in web and mobile app design & development, branding, and result-driven digital marketing, serving as a creative hub for end-to-end digital solutions.

Responsibilities:

- Architected and developed custom WordPress themes from scratch, focusing on scalability, performance, and clean code standards.
- Led advanced website development using Elementor & Elementor Pro, delivering dynamic, conversion-focused, and user-centric designs.
- Engineered custom theme and plugin modifications to extend core functionality and meet complex business requirements.
- Developed high-performance, animation-rich websites using HTML, CSS, and modern front-end techniques.
- Integrated Lottie and interactive motion systems to create engaging, real-time animated user experiences.
- Designed and launched fully customized Shopify stores, optimizing UI/UX and customer journey for higher conversions.
- Built premium, scroll-based interactive websites using Webflow with advanced animations and modern design principles.
- Ensured cross-platform responsiveness, performance optimization, and SEO-friendly implementation all projects.
